**5 Star Stories Inc. RELEASES A CONTROVERSIAL NOVEL THAT IS  
A MUST READ FOR EVERY TRUE TEXAN.**

Is Daniel N Jason's latest novel, Texas Secedes, prophecy or fiction? You decide as the freedom of Texas hangs in the balance.

**Texas Secedes features Matthew Wolverine, a Christian hero who stands up to the federal government for his beliefs without regard to the cost. Readers covet the encouragement of a hero who can stand up to an all powerful Caesar.**

Matthew Wolverine's eyes are open that Texas will become a de facto part of Mexico within ten years. The federal government will never close the Texas border from the invasion of illegals nor will they save Social Security from bankruptcy. This unthinkable loss of his children's wealth and freedom in the near future spurs Matthew Wolverine into action.

What parent does not seek the safety, security and protection of future wealth for their children? Matthew Wolverine shares this dreadful revelation with his family and they pray for guidance on protecting all the children of Texas. Their family's mission becomes crystal-clear. They must urge Texans to vote on secession from a federal government that will no longer protect them.

Every Christian and all Americans need heroes in novels with true courage to stand up for our fundamental rights. Belief in what is right permeates this novel and neither terrorist attacks on the Wolverine family nor threats from Homeland Security can stop their mission to protect the future freedom and wealth of the children of Texas.

**Daniel Jason is available for scheduled radio interviews or as a last minute replacement by calling 713-455-1073.**

**I hate spam so if you don't wish any future news releases from 5 Star Stories Inc just reply and type "remove from list."**

**Have a blessed and prosperous 2008, Daniel N Jason 713-455-1073**
